Will the legislation have a major impact on existing City appropriations, fiscal liability or revenues? Yes No X

If the legislation will not have a major fiscal impact, explain briefly the reason for your conclusion.

Any impact would depend on the assessed value of a manufactured house relative to the assessed value of the conventional house that might otherwise be built in any location. Since either type covers a broad and overlapping range of values, this change per se has no impact.

If the legislation will have a major fiscal impact, explain briefly what the effect on City costs and revenues will be and include factors which could lead to significant additional expenditures in the future. Be as specific as possible. (Continue on second sheet if necessary)
